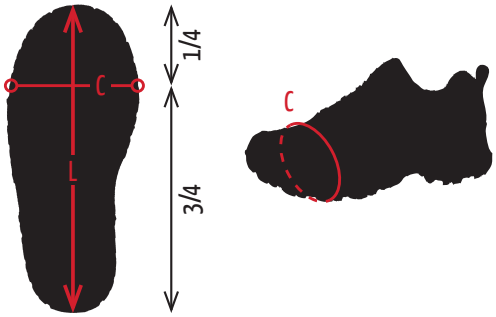
Due to the different shoe assemblies and fit variants / brands, we have developed the table below for absolute fit so that you can be sure that your Micro Crampon fits and holds perfectly on your individual shoe.

step 1

Check the dimension of your shoes, by taking the measures L and C:

L = **Length** of the shoe, measured at the sole
C = **Circumference** of the shoe, measured at the top 1/4 of the shoe



step 2

Choose the right size of your Micro Crampons from this table;
